Objective

Seeking a REACTJS Developer role to leverage my expertise in creating reusable components for enterprise-level web applications. Passionate about technology and skilled in building scalable web solutions.

Technical Skills

- **Programming Languages:** JavaScript, Typescript
- **Web Development:** HTML, CSS, DOM Manipulation, Async JS, Fetch API, CRUD Operations
- **Tools:** VSCode, GitHub, Copilot, ChatGPT
- **Libraries:** React.js, Next.js ,

Personal Projects

Spotify-clone Web App

- **Backend** :- Developed using Express.js, MongoDB , Cloudinary and Multer for media file handling.
- **Admin Panel** :- Built with React, React Router ,React Toastify and Tailwind CSS for managing Songs And albums
- **User Interface** :- Created with React ,React Router, Axios and Tailwind CSS for displaying and playing songs

Snappy Chat app

- Developed a full-stack chat application using React, Node.js, Express, and MongoDB.
- Implemented real-time messaging with Socket.io.
- Created user authentication and authorization with bcrypt for password hashing.
- Designed a responsive UI with styled-components.
- Containerized the application using Docker for easy deployment.
- Integrated email notifications using nodemailer.

- Managed state with React hooks and handled API requests with Axios.

Prescripto Hospital Management

- User Authentication: Secure login and registration using JWT and Bcrypt.
- Appointment Booking: Users can book, view, and cancel appointments with React and Node.js.
- Doctor Management: Admins can manage doctors using React and MongoDB.
- Payment Integration: Supports payments via Razorpay and Stripe APIs.
- Dashboard: Admin and doctor dashboards for statistics and management using React.
- User Profile Management: Users can update profiles and view history.
- Doctor Availability: Doctors can update their availability.
- Notifications: Real-time notifications for updates using React Toastify.
- Responsive Design: Mobile-friendly UI with Tailwind CSS.
- Secure Data Handling: Secure data management with JWT and HTTPS.

Experience

NetParam Technologies Pvt .Ltd.

Reactjs Internship | Learn and Build | Jaipur, Rajasthan |
AUG-2023 TO FEB-2024

- Completed training in MERN stack, covering frontend and backend technologies.
- Gained proficiency in building responsive and interactive user interfaces using React.js, with state management through Redux and Context API.

Education

Bachelor of Computer Applications (BCA) | 2020-2023

Maharshi Dayanand Saraswati University (MDSU) ,Ajmer

Secondary Education |2018 & Senior Secondary Education | 2020
